

The World's Largest Manufacturer of FRP introduces...

SUN STRONG™ PRS

SunStrong is the Next Generation of daylighting panels. Crane Composites developed this new fiberglass reinforced composite panel using an advanced polymer resin system with superior UV inhibitors and color stabilizers. In extreme solar environments, the SunStrong resin provides the best weathering performance ever seen.

- SunStrong maintains excellent color stability
- Available for curtainwall, metal building, and industrial panel applications
- Superior UV protection against yellowing and fiber blooming
- New technologically advanced ultraviolet screening agents
- FRP will withstand wide temperature fluctuations, harsh chemicals and won't crack, craze or shatter
- SunStrong carries a 20 year warranty

CUSTOM PROFILE MATCH TO YOUR METAL BUILDING!!

According to Wayne Toenjes, President of Major Industries, "The SunStrongPRS polyester resin system offers a unique package of long-lasting polymers, UV inhibitors, and color stabilizers to yield an exceptional translucent exterior sheet with the best weathering performance ever seen in the daylighting industry."

**With a REVOLUTIONARY resin system,
SunStrong is the BEST exterior
weathering product on the market!**

**LET LIGHT IN! KEEP WEATHER
EFFECTS AWAY!**
